Preface

Within the boundaries of McDonough County, Illinois are more than a hundred cemeteries and gravesites ranging in size from a single burial site to the expansive Oakwood Cemetery at Macomb. Within these cemeteries are the remains of an estimated 40,000 individuals who have died since the first settler arrived here over 150 years ago. Graves of countless others are scattered over the countryside of McDonough County; but, exact sites of many of these resting places are no longer known for various reasons. During the early days of this county, there were obviously no central burial grounds; thus, a pioneer family having the misfortune of losing one of its members placed the deceased in a grave on a family homestead and erected a makeshift marker. A number of these family burial grounds later became public cemeteries, however, many of the grave sites soon became "lost". Crude wooden markers or hand engraved stone soon succumbed to the elements and were never replaced; scores of families moved further west after staying in this area only a short time and the gravesites of their loved ones shortly became insignificant mounds of earth; a number of families passing through this vicinity suffered individual losses. A prime example of the latter is contained in a history of Bethel Township. In 1830, four children of an emigrant family died while en route through McDonough County. They were buried near their places of death which occurred about two miles southwest of Fandon. All traces of those graves have long been gone. During the summer of 1834, a widow lady died at her home in northern Tennessee Township. Her coffin of dressed walnut lumber was built by a local cabinet maker and she was buried in the timber near her home. Within a few years, no evidence remained to indicate the presence of her final resting place. A family who created an excellent farm from the prairies a few miles north of Macomb, maintained a fenced family burial site for several years. This cemetery contained the graves of about 12 former family members. During the early 1900's, the farm changed ownership. Shortly thereafter, the new owner removed all the stones, took down the fence and this graveyard became part of a cornfield. These are only three of the countless incidents involving the total disappearance of burial sites. At this time, it is impossible to determine the locations of hundreds of individual's graves in this county.

Vandalism is responsible for the destruction of many grave stones. Countless markers have been partially or totally destroyed. Inscriptions have been obliterated by gunshot blasts, stones have been broken into dozens of pieces, and some markers have been entirely removed from their original locations.

While weather-wear and vandalism accounts for most of the destruction of individual tombstones, neglect is directly responsible for the eventual deterioration of graveyards. Several local cemeteries have had no protective fencing for a number of years and the grounds have become grazing land for livestock. Groundhogs and other burrowing animals have undermined large portions of various cemeteries. Some areas are nearly invisible because of massive growth of weeds and brush. Stones have fallen, broken, and become completely covered with soil and debris.

The overall condition of our county cemeteries is a pathetic case. While some grounds are well maintained, or at least partially kept-up by various families, many have been totally forgotten. This situation is appalling and should never have come about. Apparently, lack of time, expense, and most of all regard has brought about the present-day poor conditions of many of our rural cemeteries.

Genealogical notes accompanying the various cemetery listings were prepared from a wide variety of sources including: Local area history books and atlases; newspaper files; county, state, and federal archives; family histories. These notes were collected at random from readily available sources and little, or no attempts were made to search for material for more complete genealogies. These notes are presented only for the purposes of identification and/or clarification.

Every attempt has been made to present complete and accurate information. Readers will find errors and omissions. Others will not agree with portions of my findings; however, no information contained herein is based solely on assumption or guesswork. It must be remembered that this information has been prepared for use only as a tool for further research and that nothing must be taken as final and absolute.

The larger cemeteries contained in these volumes are accompanied by grave location charts. These charts in no way are intended to represent any professionally prepared plat or survey that may exist. Their preparation and presentation are solely for general location purposes.

When copying inscriptions from grave markers, it is sometimes impossible to read some portions of the engraving. Names, dates, ages, etc. that were found to be unclear or totally missing are indicated by the use of question marks or dashes, i.e., SPICER, James T., infant son of ?J.B. & S.J.?; d. ____; age _____. The letters or numbers enclosed in parenthesis following the inscription, indicated general location as indicated on the accompanying chart.

Abbreviations used are as follows:

| | |
|--------------------|---------------|
| b. born | m. months |
| Cav. Cavalry | md. married |
| Co. County/Company | sec. section |
| d. died/days | twp. township |
| dau. daughter | y. years |
| Inf. Infantry | |

Time and space prohibits proper recognition for all those individuals who gave assistance in preparing and publishing these volumes. Deep and sincere appreciation is extended to all concerned, especially to the following: My parents, Mr. and Mrs. Lloyd Lester, and my wife, Rose; and to Mrs. Lavina Walton and other members of the Schuyler County Historical and Genealogical Society for printing and binding the finished product. Thank you.

Duane Lester

ADDENDUM

Mr. Lester's Magnum Opus is nothing short of monumental. It is not easy to gain access to many of these historic family burial sites. By the time of Mr. Lester's survey (1970's) numerous plots were long left abandoned, overgrown with trees and weeds and monuments under attack by weather, livestock, vandals, and property owners who did not care about the burial sites of McDonough County's brave pioneers. Thankfully, we now (2012) have laws to protect our county's historical legacy and these final resting gardens.

I am in awe of Mr. Lester for his transcriptions of hard-to-read tombstones and his laborious typing of his 18 Volumes of the Rural Cemeteries of McDonough County. He did not have access to a computer. In addition to transcribing information from tombstones, he had to painstakingly access county records (e.g. 1840 county tax list), federal census records, and local newspapers requiring a great deal of time and effort. As a genealogist in 2012, I have access to the internet with fast access to US Census records, Family Search (records kept by the Church of Jesus Christ of Latter-Day Saints) and numerous other legal documents, books, and family journals. Mr. Lester used an old-fashioned key-strike, ribbon tape typewriter where mistakes were hard to correct and appear as overstrikes. There are very few attesting to his skill as a typist. What an US Census record will not contain are the names and dates of infants who died between census surveys. Mr. Lester's tombstone records give names and dates of children, whose lives were brief, but would otherwise be lost to history without his efforts. Frequently, he provides names of brothers and sisters, fathers and mothers that allows for completion of family group sheets.

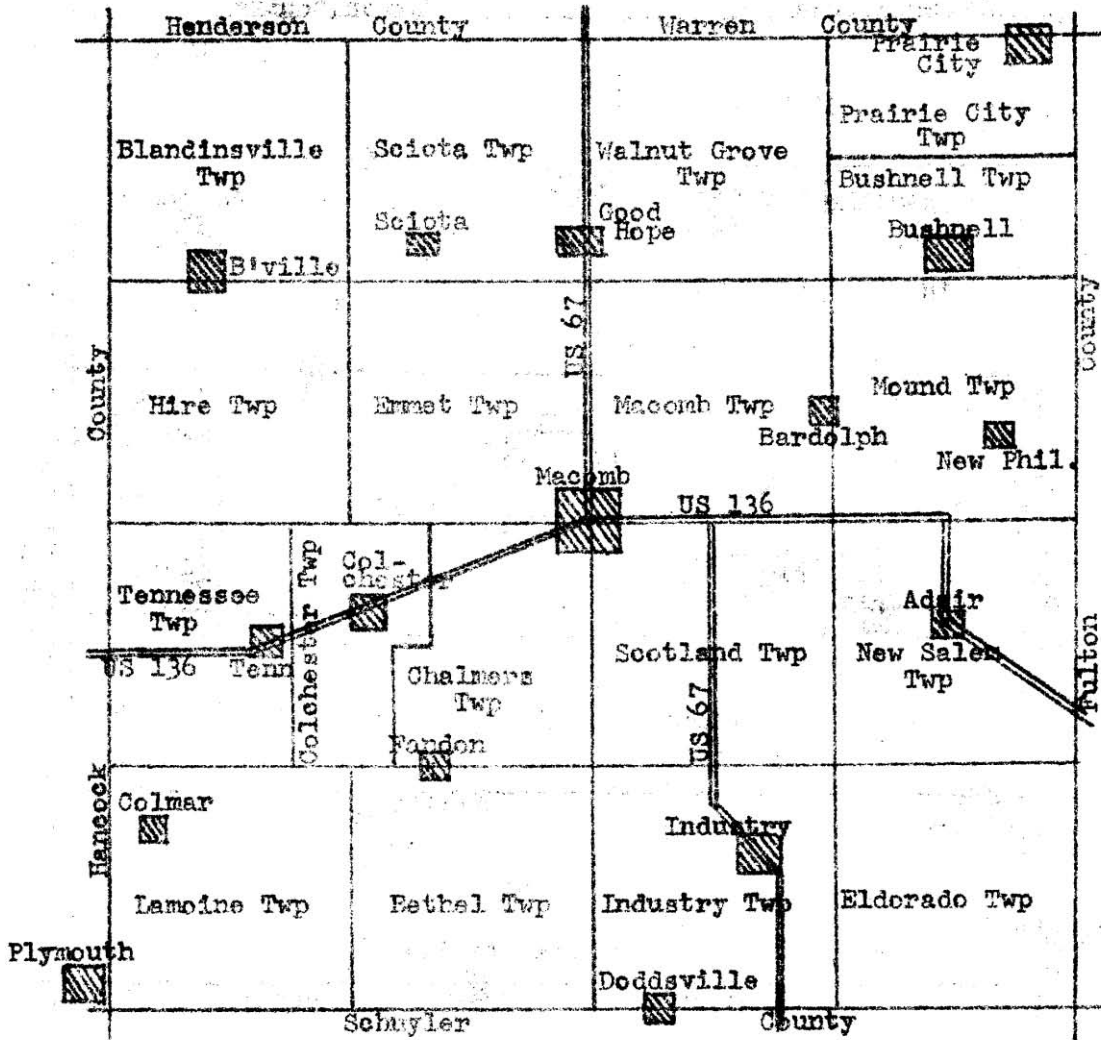

Another work of love for those who dared to settle the prairie lands of western Illinois and raise their families is being performed by Dr. A. Gil Belles. He has been able to install signs for each of these rural cemeteries and provide GPS (Global Positioning System) information making it easier for anyone wishing to visit a rural cemetery to help them actually find it. Gil also works closely with Boy Scouts and other civic groups to help cleanup, clear brush and dead trees, locate buried tombstones, and restore stones. My revision of Mr. Lester's document will provide information on all cemetery restoration projects.

Any changes made to Mr. Lester's original work was done in blue color font. His maps were scanned and copied into the text and remain like his original work and are not subject to editing. His text was transcribed using MS Word, enabling me to control font size and color. Retyping text also leaves room for typo errors. Mr. Lester's rare typo errors are corrected but not displayed in blue. This MS Word document allows on-the-fly editing of any "Notes, Corrections, Additions, and Changes" found at the end of every cemetery. This was Mr. Lester's intent to produce a working document and improve accuracy about the information on those buried. I have retyped state abbreviations as they are now used (e.g. IL, instead of Ill.). On 1840 county tax lists I omitted cents (e.g. \$140, instead of \$140.00). The current MS Word font uses less space, thus, placing more text per line. This shrinks his documents and reduces pages. This, then, changes page numbering in each Table of Contents.

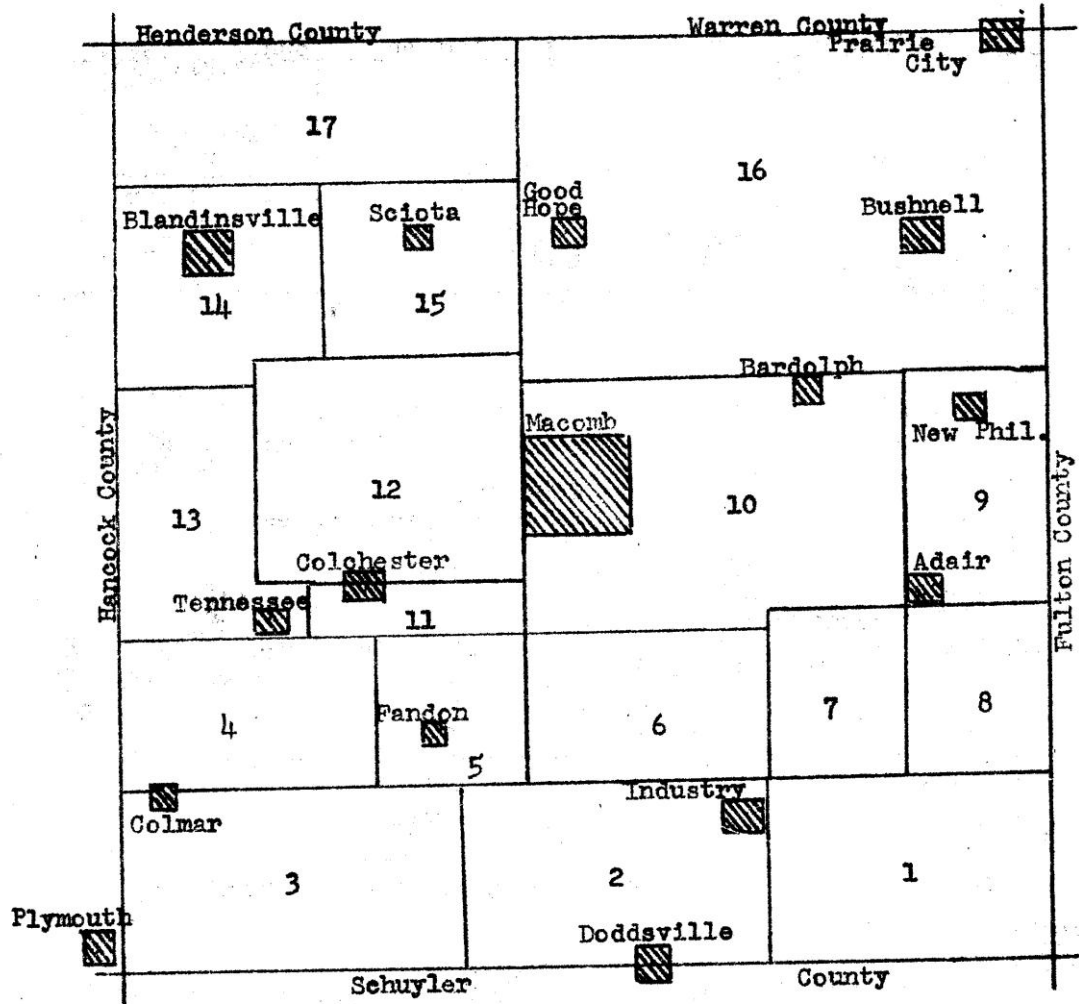

Cemetery locations are also found on the internet. See: **McDonough County Illinois Cemeteries**

CHOCKLEY CEMETERY

Location: Eldorado Township, near the center of the SE¼ of section 29; 3.5 miles east and 2 miles south of Industry. $40^{\circ} 17' 48''$ N: $90^{\circ} 31' 54''$ W

Remarks: One of the few count owned cemeteries remaining, this cemetery was deeded to McDonough County several years ago and remains under that ownership at this time. The grounds are well maintained on a regular basis. Most stones are standing upright and the majority are completely readable, although several are badly weather-worn. In the northwest section, facing west, are two large monuments that read as follows: "in memory of Pres. Wilson, the unknown American soldier, and the Red Cross Nurse; erected by Albert L. Adams, 1926". The other reads, "In memory of the brave boys who did not come home from the World War; erected by Albert L. Adams, 1921." This registration was made in 1975.

SPRINGER GRAVE

The grave of Mordecai Springer, who died Nov 13, 1887, at age 76y 7m 24d, is located in a small, fenced area in the NW¼ of section 26, Industry Township. This is about 2 miles south-southeast of Industry, near the former site of the Crossroads School. [Near junction of county roads 125 N and 1650 E. 40° 18' 1.6" N: 90° 35' 33"W](#)

Mr. Springer's gravesite is just north of a former cemetery, known as Crossroads or Pleasant Grove Cemetery. Carter's Settlement was located in this general area and was one of the first settled areas in the county. Pioneer families came here in 1826-27, and in 1827, built a log fort for protection against local Indians. A cemetery was established here in the late 1820's, but all traces of it have long been gone. Early settlers in this vicinity included: Riggs Pennington, William Carter, Sela Tomberlin (a widow), Stephen Osborn, John Wilson, James Vance, Rev. John Logan, Isaac Fowler, and a Mr. Jenkins.

In 1871, M. Springer was indicated as the owner of 40A in this section; his home was located near the site of his grave. W.L. Springer owned 20A just to the west of Mr. Springer's property. The 1840 county tax list shows Lewis Springer as the owner of the entire NW¼ (160A) of section 26. He also owned the SE¼ of the same section, and his residence was located on the SE¼. No other Springers were recorded on the 1840 tax list.

VAIL CEMETERY

Location: Industry Township, SW¼, section 14; on the east edge of the Industry city limits, south side of the road. [Located about one-quarter mile east on Main Street past where US HWY 67 turns south: 40° 19' 38" N: 90° 35' 58" W](#)

Remarks: Neglect and vandalism have caused this family graveyard to deteriorate to near oblivion. The partially fenced grounds are covered with brush, weeds, briars, small trees, etc. The stones and their inscriptions are in surprisingly good condition. However, nearly all of them have been pushed from their original positions. Large stones, some weighing several hundred pounds have been toppled from their bases and are lying in deep underbrush. This survey was made in March, 1975.

WILHELM CEMETERY

Location: Industry Township, NW¼, Section 23; about a half-mile south southeast of Industry
40° 18' 54" N: 90° 35' 44" W

Remarks: This cemetery is located on privately owned ground and is about ¼ mile from any public road. Present condition is poor due to heavy overgrowth of brush and weeds and years of general neglect. The majority of stones are badly weather-worn and many are broken into several pieces; several monuments were located under sod and dead leaves. This graveyard is situated just a few hundred feet east of the Peak Cemetery.

Notes, Corrections, Additions, and Changes

1st Burial: 1850
Last Burial: 1881

Starting in Aug 2012 and ending on 8 October 2012, George Blome, senior at Macomb, Illinois High School and member of Troop 303, Church of Jesus Christ of Latter-Day Saints, supervised the cleaning of this cemetery as his Eagle Scout Project. In addition to clearing the cemetery of dead trees and invasive weeds, buried stones were exposed, some were reset and four seedling trees were planted. A mailbox was installed that contains this document.

Dr. Gil Belles was able to find a stone that was not included in the Lester document. Added to the cemetery:

**"Our Little Katie" Katie E. Ritenour, dau of J.E. and M. Ritenour, b. Feb 6, 1871,
